POST-ICIS 2010
LG CNS/KrAIS WORKSHOP ON
The Future of IS research by Korean Scholars

December 15 (Wednesday), 2010; Saint Louis, Missouri

We cordially invite you to submit your contribution to the inaugural LG CNS/KrAIS Research Workshop that will be held immediately after ICIS 2010 in St. Louis, MO. We are interested in original scholarly research on a broad range of topics on information technology and its consequences on individuals, groups, organizations, communities and societies. We are particularly interested in research, but not restricted to, that reflects on unique cultural, educational, socio-economical context of Korean society.

Objectives:
As a chapter of the Association for Information Systems (AIS) serving AIS members with Korean heritage, Korean Association for Information Systems (KrAIS) aims to promote the scholarship by its members. Any Korean scholars and professionals -- both domestic and abroad -- who are interested in the development, management, and use of information and communications technology are encouraged to participate.

The objective of the KrAIS Research Workshop is to provide a forum where its members can exchange ideas and information and promote possible collaboration among its members. In particular, the Workshop will focus on helping graduate students and junior faculty improve their research and develop scholarship through close interactions with peers and senior faculty. The workshop will help graduate students and junior faculty publish their research in top-tier scholarly journals and effectively move their careers forward.

Another important objective of the Workshop is to improve the reputation and the impact factor of the KMIS' flagship journal, Asia Pacific Journal of Information Systems (APJIS) through citations and publications.

Format:
In order to facilitate in-depth discussion and exchange of ideas, the Workshop will feature roundtable sessions where five to six authors briefly present their research for about 10 – 15 minutes each, followed by questions and discussions. Tables will be organized based on research interests and will be led by two senior scholars who will serve as mentors. All participants are expected to have read all the papers for the table prior to the workshop so that the discussion will focus on how to improve the paper.

Scholarship for Graduate Students:
Through the generous financial support by LG CNS, the KrAIS will award scholarship (US$500 each) to four graduate students. The program co-chairs will select four graduate students among the participants to the workshop based on the input from reviewers. Special considerations will be given to those who were the sole or lead author of the paper.

Submission:
Authors are encouraged to submit either complete research or research-in-progress. Doctoral students and junior faculty members are especially encouraged to submit their research. All submissions must be either in English or in Korean, using Microsoft Word. If you submit paper in Korean, please submit a two-page extended abstract in English as well. For complete research, please comply with ICIS 2010 formatting requirements (http://icis2010.aisnet.org/submissions.htm). For research-in-progress, please submit no more than a two-page extended abstract. All submissions should represent original work done by the authors, and must NOT have been published, or accepted for publication. However, authors may submit papers presently under review for journals as long as they have not been accepted yet.

Authors who are interested in participating in the workshop need to submit paper by September 15, 2010 to Hee-Woong Kim (kimhw@yonsei.ac.kr) or Dong-Gil Ko (donggil.ko@uc.edu). Submissions will undergo a blind review process. All authors should agree to provide timely reviews of at most two other submissions, if requested.

Important Dates:
Submission Deadline: September 15, 2010
Notification of Acceptance: October 15, 2010
Workshop: December 15, 2010

Time and Venue:
The Workshop will take place from 1 pm to 5 pm on December 15, 2010 in the ICIS conference hotel. Immediately following the Workshop, the KrAIS business meeting and dinner will be held from 6 to 8 pm. We ask current and future KrAIS members stay an extra day to support the new initiative by KrAIS.

Registration:
The LG CNS/KrAIS Research Workshop has been registered as an official ancillary meeting and will appear in the official ICIS registration system. KrAIS faculty members can register for the KrAIS Workshop when they register for ICIS 2010. The registration fee for the Workshop is $40 for early bird, $50 for regular, and $60 for on-site registration. Students are free of charge. The income from the registration fee will be used to further promote KrAIS programs and activities.

LG CNS

Workshop Co-Chairs:
Hee-Woong Kim (kimhw@yonsei.ac.kr), Yonsei University
Dong-Gil Ko (donggil.ko@uc.edu), University of Cincinnati

Workshop Committee Members:
Gee-Woo Bock, Sung Kyun Kwan University
Se-Joon Hong, Korea University
Dan-Jong Kim, Univ. of Houston, Clear Lake
Dongmin Kim, Univ. of New Brunswick
Gwanhoo Lee, American University
Ho-Geun Lee, Yonsei University,
Sang-Yong Lee, Hanyang University
Youngjin Yoo, Temple University
