Information Management

APCIM 2016

“Common Platform a Sustainable Society in the Dynamic Asia Pacific”

October 20-22, 2016

Vietnam National Univ. (VNU), Hanoi
Univ. of Economics And Business

<http://www.jsim.gr.jp/apcim2016/>

APCIM2016

The Asia Pacific Conference on Information Management 2016 will provide an international forum for researchers and practitioners to exchange innovative ideas on various topics of information management and related areas. This conference will be held jointly by the Japan Society for Information and Management (JSIM) and Vietnam National University (VNU). University of Economics and Business in Hanoi, Vietnam.

•Topics of Interest

The main theme of the conference will be "Common Platform a Sustainable Society in the Dynamic Asia Pacific." The focus of this theme is how we can develop and sustain an affluent society, both materially and spiritually, using IT-based solutions in the global and multi-cultural environment.

Another aim of this conference is to overcome the superficial understanding of technologies, and to seek out a way to create a new knowledge system based on a deep understanding of fundamental business principles. We would like to have high-quality original papers in the areas of interest that include, but are not limited to:

- > Case Studies on Data and Information Management, Monitoring and Analysis
- > Cloud computing and its business implications
- > Customer Relationship Management
- > Data and Information Quality Management
- > Data Exchange Issues and Agile Supply Chain
- > Data Life Cycle in Products and Processes
- > Data Mining and Business Intelligence
- > Data Models for Production Systems and Services
- > Database Management
- > Digital Libraries/Multimedia Information Systems
- > Distributed Information Systems
- > e-Learning, e-Commerce, e-Business and e-Government
- > Enterprise Architecture and Enterprise Systems
- > Environmental Management and Green IT
- > Governance of Information Management
- > Human-Computer Interactions
- > Information Content Security and Access Control
- > Information Management
- > Information Retrieval and Data Mining
- > Innovation and Knowledge Management
- > Legal issues in Information Management
- > Management of Technology
- > Manufacturing Systems/Computer-Integrated Manufacturing
- > Mobile Data Management
- > New Infrastructure for the Internet - IPv6
- > Organizational Aspects of Information Management
- > Payment and Secure Transactions on the Internet
- > Peer-to-Peer Data Management
- > Protecting Intellectual Property Rights on the Internet
- > Quality of Service Issues
- > Security on the Internet
- > Social Justice – How to use IT to achieve a just society
- > Sustainable Supply Chain and Environmental Issues
- > Ubiquitous Systems and RFID Applications
- > Use of Social Media for Business
- > Web Databases and Web Services
- > Web Metrics and their Applications
- > Web Mining, Web Intelligence and Web 3.0

Abstract and Full Paper Submission

Those who would like to present a paper at the conference are requested to submit the abstract (300-500 words) along with the personal information of authors (name, affiliation, postal address, phone number and email address) to apcim2016@jsim.gr.jp by February 8th, 2016. All submitted abstracts will be reviewed on the basis of relevance and significance to information management and originality.

Once notified of abstract acceptance, full papers should be submitted by May 9th, 2016 to apcim2016@jsim.gr.jp. The submission of full papers is not compulsory, but optional. Those full papers will be thoroughly reviewed for inclusion in the conference proceedings and special issues of authorized academic journals related to information management after the conference. Instructions for preparing full papers and sample files in Word and PDF formats will be available on the conference website. Awards will be given to excellent full papers in different categories. Abstracts and full papers must be written in English.
